## K. OF P. MEMORIAL SERVICES.

Conducted in Beautiful Manner By Rough River Lodge.

Rev. Wright Delivers a Sermon Which Endears Him to the Hearts of Hartford K. P's.

Agreeable to a beautiful custom the local lodge of Knights of Pythias observed last Sunday as a memorial day and decorated the graves of their departed brothers at Oakwood and elsewhere. The day was damp and threatening rain, but the Methodist church was well filled at 11 a. m. when the lodge marched in, and were seated in a body. They presented a splendid appearance being young men or those in the prime of life. Each wore an elegant badge of mourning. When they entered, their banner was hung in front of the stand draped in black. This was surmounted by a shield, worked in flowers of red, yellow and blue, the lodge colors, which was designed by Mrs. J. S. Glenn and Miss Dora E. Gibson. Enclosed in the shield of flowers were the letters "F. C. B." so dear to every Pythian heart, in gilt. The church about the altar was supplied with sweet flowers.

The opening song "Some Sweet Day," by the K. P. Quartet, composed of Knights, Griffin, Walker, Pirtle and Birkhead was well rendered, and as the last note died away many of the congregation were in tears. Prelate E. W. Ford delivered a short, effective prayer, after which Miss Hattie Barnett sang "One Sweetly Solemn Thought," accompanied by Mr. Ernest Fields with his violin.

The roster of departed Knights, W. A. Gibson, James A. Smith, W. R. Bonner, Dr. Will King, John P. Morton and Sam S. Cox was read by Keeper of Records and Seal C. M. Crowe, giving date when knighted and time and place of death.

"Crossing The Bar," by the Quartet was enjoyed by all and the sentiment was well adapted to the occasion.

The sermon, by Rev. Wright, Pastor of the Christian church, and who is himself an enthusiastic Knight, was beautiful and appropriate. His text was: "Let Brotherly Love Prevail." The address was full of splendid thought and furnished to those who do not belong to the order, much information concerning its work for humanity. He told the beautiful story of Damon and Pythias and advanced the idea that the fact that the church had failed to do her duty gave rise to fraternalities. He cited the bible story of the good Samaritan and said the Priest and Levite were not Knights of Pythias, but that the Samaritan was one, or at least he had a Pythian heart.

At the close of the sermon the entire congregation sang "Nearer My God to Thee."

Miss Carrie Woerner presided at the organ during all the musical selections, and her services were much appreciated by members of the order.

At 3 o'clock the graves of those Knights who are buried at Oakwood were handsomely decorated with choice flowers.

The entire program was carried out in an effective manner, without a hitch, and but for the inclement weather the day could not have been better.

### Miller-Griffin Wedding.

Mr. David G. Miller and Miss Mary Griffin were married at the home of the bride's parents, Mr. and Mrs. F. M. Griffin at 2 o'clock Tuesday afternoon. The ceremony was said by the Rev. C. F. Hartford. The wedding was a quiet one, and only a few friends of the bride and groom had been invited. There were no attendants.

Mr. Miller is a well known young business man of Owensboro. His original home was at Hartford, but for some time past has been connected with the Mullen & Haynes Drug company, of this city. Mrs. Miller is the only daughter of Mr. and Mrs. F. M. Griffin, whose home is east of the city. She is a charming and talented young woman.—Owensboro Messenger.

### Death of Dan F. Gibbs.

The many friends of Mr. Dan F. Gibbs, in Ohio county, were shocked and pained to learn of his sudden death last Monday at Evansville, Ind., where he had gone only a few months ago to enter a business connection in

wholesale groceries. His death resulted from an operation for appendicitis. His remains were laid to rest at Rockport Tuesday afternoon, after a brief funeral service at the Baptist church, of which he was a faithful member.

For many years Mr. Gibbs was in business at Rockport, and was also post master of the town for several terms. He enjoyed a wide circle of friends and was a success in his business career. Until recently, he was a stockholder in this paper, and we held him in the highest esteem. The family has our deepest sympathy.

### Brunton-Lallinger.

Miss Margaret Brunton, age 24, and Mr. Jno. L. Lallinger, age 27, Beaver Dam, were married at the home of Mrs. Will Travis, Clay street, Owensboro, Sunday morning at 10:40. Rev. B. F. Jinkins officiating.

Miss Brunton is the eldest daughter of Mr. and Mrs. O. P. Brunton and is one of Beaver Dam's most charming and popular young ladies.

Mr. Lallinger is late of the U. S. Army recruiting service and is now salesman for E. P. Barnes & Bros., of Beaver Dam. They will make their home at Beaver Dam. Mr. Geo. W. Brunton, brother of the bride attended the wedding.

### Negro Killed at R. R. Camp.

The colored gentry of the railroad camp about two miles West of Centertown engaged in a drunken row last Sunday and as a result one was killed. He was shot at a close range with a shot-gun the contents taking effect in the neck, almost severing his head from his body.

The coon that did the shooting left the scene at once going in the direction of Shallous. Esq. S. H. Renner was called and held an inquest.

Citizens of the community refused to permit the burial of the "darker" on their premises and the remains were taken to the almshouse farm two miles East of Hartford and buried.

## HOME WARE-HOUSERS FIRED.

District Meeting of A. S. of E. so Decides.

Harmony no Longer Possible and Step Taken as last Resort.

After almost two years of more or less incessant wrangling there is a complete severance between the A. S. of E. tobacco growers with pooling arrangements with the Louisville Warehouse company and those who have been pooling with the Davless County Equity Warehouse company. This separation was effected at the Green River District Tobacco Growers' association meeting on Monday. This was done by a vote of the district delegates which declared the Davless County Equity warehouse people outside of the A. S. of E. because of alleged violation of the A. S. of E. laws. This seemed to have been the chief purpose for which the meeting was called, the "ousters" claiming that this action was necessary to the success of the A. S. of E. in the district, and the "ousted" claiming that they were doing more good by their local warehouse plan for the A. S. of E. principles than those who were pooling at Louisville. The latter took little part in the meeting and seemed in different as to what was done. They say that they are attending strictly to their own business and intend to continue to do so. Both sides seem to have gotten what they want and should now be satisfied. In the meantime, there will be a hot contest to see which faction will get the greater part of the 1907 crop pledged to its pool.

The home warehousemen were ousted in the following manner:

President Berry of the Davless county district offered a motion that a stock company be formed of the Equity men to handle the crop of tobacco. There was so much wrangling and spirited talk that Mr. Berry withdrew his motion. His first motion was to get the counties to consider the motion and vote on it at the next meeting.

Mr. L. N. Robertson made a motion that a committee of eight be appointed to meet the Home warehouse officials and get an understanding regarding the difficulty between the two parties, which was done. The committee after hours of conference reported as follows:

"We, your committee, respectfully report that after a complete consideration of the position and propositions of the board of directors of the Home Warehouse company, we are unable to reach any agreement satisfactory to your committee and said board. We, therefore, recommend that the people composing the home warehouse take no further part in the meeting of the Green River district Tobacco Growers' association of the A. S. of E. until such time as the board of directors of said warehouse company agree to abide by the constitution and by-laws of the tobacco growers' association."

The report was adopted after much discussion and wrangling.

### Among The Lodges.

Hartford Blue Lodge F. & A. M., received three petitions at its regular meeting Monday night, and conferred the Entered Apprentice degree on one candidate. A large amount of routine business was transacted.

We have been handed by Dr. E. B. Pendleton, a file of the "American Freemason," being Vol. 11 published at Louisville in 1852. It was found a few days ago by Hon. H. P. Taylor, and given to Dr. Pendleton. It was presented to Hartford lodge No. 156, by the Grand Lodge of Kentucky. It bears Masonic date 5833, and contains many interesting articles upon matters pertaining to the Craft. Among the old faded leaves of the file was found an invitation to Hartford Lodge No. 156 to attend the ceremonies of laying the corner stone of a new Masonic home in Louisville, June 10, 1851. The invitation is signed by Chas. Tilden, C. F. Willis and S. L. Grant Committee, and contains a front picture of the old Masonic building at the corner of 4th and Jefferson, which was burned a few days ago. Any of the brethren who desire to see this Masonic relic can do so by calling at this office within the next few days.

A call meeting for Hartford lodge

No. 675 F. & A. M. will be held next Monday night for work in the second degree, and to consider matters in connection with the new hall proposition.

Rough River Lodge K. of P. No. 110, had an interesting session Tuesday night. One petition was received. Keeper of the Records and Seal, C. M. Crowe, tendered his resignation, to take effect first meeting night in July.

The members of the lodge dislike, very much to give up the splendid and faithful service of Bro Crowe in this capacity, but they also realize the sacrifices which he has made to serve them this far. On motion the following committee was appointed to draft suitable resolutions concerning the death of Knight D. F. Gibbs and of sympathy for Knight, John W. Taylor over the death of his little son. S. A. Anderson, E. M. Woodward and Jas. H. Williams. Knights Arch Lewis and Will S. Taylor were selected to accompany Bro. Taylor and wife to Indiana to bury their little child, as representatives of and at the expense of the lodge.

The committee on resolutions reported the following, which were unanimously adopted:

Whereas, the officers and members of this lodge have learned with profound sorrow of the death of our Bro. Dan F. Gibbs, who departed this life in the city of Evansville, Ind., on June 3, 1907, therefore, be it

Resolved, That in the death of Bro. Gibbs, this lodge has lost an excellent member, a valiant Knight, a companionable associate, and one whom each and every member was proud of, and delighted to honor. He had by his exemplary conduct endeared himself to the members of this lodge, and his untimely death is keenly felt by the officers and members thereof. Always of cheerful disposition, with a manly "courageous bearing," it was our delight to ever have him present. His was a sunny disposition always looking for the best in mankind, ever ready to uphold the right, and now as his spirit has gone to the God that gave it, we should strive to exemplify his many good qualities, "so as to make them a living principle of our order."

Resolved, Further that we extend to the bereaved widow and his little children our sincerest condolence, and assure them that in this their sad hour of bereavement, our tears, our prayers and our sympathies are with them.

That a copy of these resolutions be spread upon the minutes of our lodge, and a copy furnished to the widow of our deceased brother; that the officers and members of this lodge wear the usual badge of mourning for thirty days; that a copy be furnished to each of the county papers for publication and a copy furnished to the Kentucky Pythian.

This June 4, 1907.

S. A. ANDERSON,  
ERNEST WOODWARD,  
JAS. H. WILLIAMS,  
Committee.

This lodge will have work in the first and second rank next Tuesday night.

### Decrease in School Census.

Supt. J. M. DeWeese furnished us the following statistics on the school children for Ohio county which shows a slight decrease in the number of pupil children as compared with last year.

There are ten colored schools and report 211 male and 226 female against 236 male and 242 female last year or a decrease of 41.

Hartford district is the largest reporting 272, while Vine Grove is the smallest reporting only 18 pupils.

## LOCAL OPTION ELECTION STIRS UP BOLING GREEN.

Wild Excitement Over Closing of Local Option Campaign.

Bowling Green, Ky., June 5.—The wildest excitement prevailed here tonight. Hundreds of people lined the streets from before nightfall on, and the tent on Main street was filled to overflowing. The meeting had been advertised for colored people, but hundreds of whites stood around the edge of the tent.

Dr. William Turner, who is one of the most prominent Republicans here, and who recently went out of the whisky business and joined the temperance forces, made a rousing speech to the audience. Two colored orators also delivered addresses. A colored man from Louisville spoke to a number of his race, further down the street, for the "wets." Several county officials who had been counted with the "wets" to-day announced openly that they would vote "dry." The election takes place to-morrow.

### To Preserve McKinley Home.

Canton, Ohio, June 3.—Canton citizens have discussed methods of preserving the McKinley home intact. The idea is to make a second Mount Vernon, where the furniture and gifts and paintings and statuary of the McKinleys may be preserved.

Justice William R. Day is anxious to have the home preserved. "It would indeed be most appreciated," said Judge Day, to-day. They will want also to see the home in which the late president lived and worked. In fact the McKinley home is the most suggestive thing connected with the life of McKinley."

A small child of Mr. James Magan came near being killed by a vicious hog, a few days ago. The child is only about three years old and was playing in the barn lot where it is supposed it caught a pig the cries of which brought about the attack by the mother hog. The child's head was lacerated and one of its ankles was crushed. It is thought the little one will recover.

Your correspondent had always thought he could detect the smell of fish about newspaper stories of aged people cutting new sets of teeth but since it has recently occurred in his own balliwick his doubts are dissolved. Mrs. Julia Kirby, widow of the late Capt. T. J. Kirby, has at the grand age of eighty-eight, cut five new teeth

and it is apparent there are more to follow.

And say, Mr. Editor, speaking of out-of-the-ordinary things we've got a little garden right here in sight of our city hall that's a stunner. There is only an acre or a little more of it but you couldn't buy it for the whole Republican plant, and yours is the nicest, neatest and completest newspaper outfit outside of the largest cities in Kentucky. I am speaking of A. R. Renfrow & Co's. "sang" garden, where four hundred thousand of those wonderful plants that so admirably physis John Chinaman's ill lift their slender stems and shapely leaves above their fertile and weedless beds. Come up and see it.

## FEARFUL BURNS FROM LIGHTENING

But Preston Arnold Has a Chance of Recovery.

Was Talking Over Telephone When the Stroke Came.

One-half of his body burned almost to a crisp, his trousers torn into strips no broader than a man's finger and the shoe torn from one of his feet by a stroke of lightning conveyed over a telephone wire, Preston Arnold, of the Maceo neighborhood, still lives, and apparently has a fair chance for recovery.

The stroke by which Arnold was so severely burned shocked Joseph Mattingly so severely that he was rendered unconscious, and shivered the telephone box into splinters.

The accident occurred at the home of Ed Mattingly, about two miles from Maceo, at 6:30 o'clock last night, while the severe electrical and rainstorm was at its height. Arnold was talking over the telephone and Joe Mattingly was standing about six feet from him. Suddenly was lifted into the air and fell to the floor unconscious, his clothing torn into shreds. At the same instant Joe Mattingly fell to the floor unconscious, though without any visible effect on his body.

An examination of Arnold showed that the left side of his body was severely burned from the ear to the bottom of the foot. The most severe burn was on the face and neck, close to where the receiver was held. Mattingly recovered consciousness in a short time, but persons in the house thought for a time that Arnold was dead.

Dr. M. B. Berry was summoned and after working with the patient for several hours succeeded in partially restoring him to consciousness. At 11 o'clock last night Arnold was in a semi-conscious condition. Dr. Berry said that it was impossible at that time to say how seriously Arnold was injured, or what the chances were for his recovery. He said, however, that he had hopes for his recovery.

Preston Arnold is about twenty-two years old. He is employed on the farm of Ed Mattingly.—Owensboro Inquirer.

### Where the Danger Lies.

The danger lies in making a hedge of special tariff concessions one for each country. If tariff concessions either through lower valuations by the United States appraisers or by a lower tariff, are to be made at all, they should be granted to every country which grants the United States the "most favored nation" clause, and against every nation that seeks to discriminate against the United States this country is abundantly able to protect itself. Our exports are largely of foodstuffs, and these are necessities which other nations need. If they want them let them make such tariff rates as will admit them. If they don't there's no need of feeling over the matter. Foodstuffs are staples, and their market is wide.—Zanesville Courier.

### Tariff an Electoral Issue.

From the English newspapers now come to hand it appears that the by-election for the Brigg Division of Lincolnshire, the result of which, disclosed a remarkable reversal of public opinion, turned chiefly on the fixed question. This gives the return of the Unionist a significance above the ordinary, since the division has been Liberal since 1895, and has now turned a ministerial majority of 1,726 into a minority of 116, in the case of a candidate who made tariff reform the principal issue. Sir Berkeley Sheffield, in his election addresses, condemned the existing British duties as inadequate,

even on the basis of a tariff for revenue, and advocated their transference from necessities such as tea and sugar to foreign manufactured imports. This he maintained, would assist the working population, both by reducing the cost of the necessities of life and by ensuring greater stability of employment.

But the Unionist candidate went further and offered tariff reform as "the basis of a constructive social policy, especially of agrarian reform," much on the lines embodied in the recommendations made in the recent report of the Agricultural Committee of Mr. Chamberlain's commission. The principle favored by the committee was the taxation at low rates of imported grain and other articles of food now on the free list, in order that a fund might be raised "for land purchase, the creation of small holdings, reform of local taxation, agricultural research, improvement to transport and other measures designed to improve agricultural conditions in England. That seems to have been the policy which carried a large agricultural constituency, and what it succeeded in doing there may be easily repeated in other farming countries. It is a notable fact that the Brigg Division was the first straight fight since the general elections, in which the Unionists have captured the Liberal seat, the gain at Cookworthy being due to the triangular contests caused by the running of an independent labor candidate.—Toronto "World."

## MILITIA TO DECIDE LOCATION OF CAMP

Can go to Jamestown on Five Day's Pay or Stay in Kentucky With ten Day's Pay.

Frankfort, Ky., May 31.—To the members of the Kentucky State Guard will be submitted the question of whether they prefer to have the annual camp of instruction this summer held in the State, with ten day's pay, or at the Jamestown Exposition with five day's pay. In other words, will they be willing to put up the pay they would receive for five days in order to get the trip to the Exposition? Upon their action probably depends whether the camp will be located at Jamestown. Other matters in connection with the location of the camp at that place are to be considered, but it is chiefly desired to know how the troops themselves feel about taking the trip out of the State.

The plan to submit the matter to the soldiers was determined upon today at a meeting held in the department of the Adjutant General.

### CASTORIA.

The Kind You Have Always Bought Bears the Signature of 

### The Government Short.

There is a dearth of stenographers throughout the country, even the United States Government is unable to procure all it needs. The Business University at Bowling Green, Ky., turns out more stenographers than any other institution in the South and yet it gets many times more calls for them than it can supply. Stenography is an unexcused vocation.

### The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deep and so insidious. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. Kidney trouble is allowed to advance (the kidney poisons) and blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## SHIFTING POWER IN CHINA

Government Breaks up Monopoly Connected With Meat Inspection.

Washington, D. C., June 1.—News received at the State Department makes it appear that the present outbreak in China is one of the most serious that the government there has ever had to deal with, and the American warships on the China station are being held in readiness to protect not only American, but all foreign interests if they are seriously threatened. Consul Paddock at Amoy reports that the outbreak is not anti-foreign as was the Boxer uprising of 1900, but that it is anti-dynastic. The prize in question is the control of the "boy emperor" who has been a boy emperor for so long that he ought to be pretty well grown by this time. Foreigners know little or nothing of this puppet ruler. They do not know for a certainty whether he is alive or dead. They do know that the real power in Chinese affairs is Tsi-An, the Dowager Empress who like the Dowager Empress of Russia, takes the responsibility of running things, only Tsi-An is a good deal more openly powerful than Marie Feodora. When the ladies of the diplomatic corps were entertained by the Dowager Empress of China after the return of the Imperial family to the Summer Palace in Peking, the boy emperor was present at the audience, but he did not speak, and there was no telling whether it were really the Emperor or someone else. There have been a number of reports in the past few years that the young emperor had been poisoned or otherwise done away with, and that the crafty old Dowager was keeping a dummy in his place. Of course the one outside the innermost Court Circle can tell whether this is true or not.

But the report is gaining ground among the Chinese that Tsi-An is in her last illness, and the so-called reform party, which stands for a Chinese constitution and other more liberal measures, has organized to capture the Emperor, knowing that with him in their possession it will be possible to run the Empire pretty much as they see fit. The rebels known as the Triads have captured a number of the minor towns, and are marching on Amoy, one of the most important of the Chinese seaports. The advisers from Consul Paddock were the rebels were just outside of Swatow, a city just across the bay from Amoy. The Helena, one of the gunboats that was built especially for service on the Chinese rivers, was sent from Amoy to the scene of the trouble, and the whole American squadron now in Chinese waters is being concentrated near Amoy. So long as the rebels confine themselves to killing Chinese, this government can enter no reasonable objection. But if any foreign property, either American or other, is touched, blue jackets will be landed and will have to co-operate with the other foreign powers in saving China from herself as was done in the membership march of the Allies on Peking in 1900.

A small but most exacting monopoly has been broken up in the department of Agriculture. At least the government thinks it has been broken and that about \$300,000 a year will be saved to the government and incidentally to the public. The department has for a number of years been buying a special patented label to mark the meat intended for export. This label was the design of a Washington man and consisted on a little square of mosquito net filled with gelatine on which was printed words "U. S. Inspected and Passed." It was rather a clever device for it could be struck on the meat that had been passed by the inspectors and though the gelatine would be worn off in a little while, the indelible ink that was in the label sunk into the meat and stayed indefinitely. The government paid only 65 cents per 1,000 for the tags, but there was a handsome profit in it for the company that made them, and so long as Dr. Salmon who was the chief of the Bureau of Animal Industry and a large stockholder in the company, remained in the department there could be nothing found to take the place of the gelatine label. There came near being a bad graft scandal over this little monopoly, but the discussion died down and Dr. Salmon resigned and went to South America to take charge of the Bureau of Animal Industry that was being established by the government of Argentina. Since his departure, one of the men in the bureau has devised a little rubber stamp that does the work just as well and that even with the vastly increased work required under the new meat inspection law, will cost the government only about \$10,000 a year. It is, of course, a little curious that no device of this sort could ever be found to do the work while Dr. Salmon was in charge of the bureau, but then you know inventive genius works by fits and starts.

## HAUTES Stallion

Will make the remainder of the season 1907 at S. D. Myres Monday, Hartford Fair grounds Tuesday and Wednesday and at Centertown Thursday, Friday and Saturday, for the nominal sum of \$10.00 to insure live colt, money due when fact is ascertained or mare parted with. This is a Stallion of fine blood, good confirmation, splendid disposition, in short, he is a fine individual stands 15 1/2 hands high and is a rich bay with black main and tail and only 4 years old. Has splendid set of black legs, fine eyes, beautiful head and ear. This fine horse was sent to the Centertown Live Stock Co., by the Kentucky Breeding Bureau for the purpose of improving the breed of horses in Kentucky. To restore the standard of breeding to the high reputation that Kentucky has always held for fine and well bred horses. What Mr. Shouse, Secretary of Kentucky Breeding Bureau, says in his letter to the Centertown Live Stock Co.:

Gentlemen: The horse we are sending is a four-year-old Bay Hautes. Presented to the Kentucky Breeding Bureau by the Hon. August Belmont of New York. He was brought to this country at the foot of his dam. Imported Hautesse by Archduke and for the mare and colt Mr. Belmont paid \$25,000 at public auction. Ladas, the sire of Hautes is one of the foremost sires of England at the present time. The horse is a splendid individual and there is none better bred in America. Indeed on Breeding alone, he is well worthy a trial at the stud by any breeder of thoroughbred stock in the entire country.

Yours Respectfully,

We would be glad to have you call and see for your self and if you are satisfied with our stock and its breeding we will be delighted to do business with you. ## TWO PLANT BEDS ARE DESTROYED

Evidently Through Spirit of  
Mischievous or Mania.

Plants Belonged to Members of  
A. S. of E., on Paul  
Scherm's Farm.

Plant bed destruction has been reported in Daviess county, but there is no reason to believe that the work was done by "night riders" or any persons connected with the tobacco growers' organization. There is every reason to believe that the plants were destroyed by some irresponsible persons in a spirit of mischief, or that the idea of destroying plant beds has become a sort of epidemic mania.

The beds destroyed belonged to Paul Scherm, son of Mike Scherm, of the Rome neighborhood. Both Paul Scherm and his father are members of the A. S. of E., and have pooled their tobacco ever since the society began pooling in Daviess county. They have never asked for the advance on tobacco pooled, but have counseled their croppers to pool and take their advance. The Messrs. Scherm are not allied with either the home warehouse faction or the Louisville warehouse faction in the county and district organizations. Last year they pooled about half their tobacco with the Louisville warehouse company and the other half with the Louisville warehouse company. So far as is ascertained, there is no reason why any member of the organization should hold malice towards them.

Two large plant beds on Paul Scherm's farm were destroyed Thursday night. They contained enough plants to have planted five acres, the regulation Equus acreage for two years were the property of a negro cropper on Mike Scherm's farm.

The beds were covered with canvas and the destruction was wrought by applying a match to the canvas. The plants were unusually large and would have been set out in a few days. With the exception of a few small plants that were protected by the large ones, all were totally ruined. A third bed, a short distance from these two was left unharmed.

Paul Scherm is a young man, and this would have been his first crop for himself. He expected to hire one hand and put out 20,000 hills of tobacco. Plants from the other bed were to be used on Mike Scherm's farm.

There is no clue as to the identity of the person or persons who perpetrated the outrage.

There is no case of indigestion, no matter how irritable or how obstinate that will not be speedily relieved by the use of Kodol. The main factor in curing the stomach of any disorder is rest, and the only way to get rest is to actually digest the food for the stomach itself. Kodol will do it. It is a scientific preparation of vegetable acids containing the very same juices found in a healthy stomach. It conforms to the Pure Food and Drugs Law. Sold by all druggists.

### In Memory

Of Grace, daughter of George B. and Mary A. Lee, Sunnydale, who was born May 22nd 1890 in Ohio county, Ky., joined the M. E. church South at Marvin Chapel, March 5, 1905. Was married to Mr. Charlie H. Duncan, March 21, 1906, died May 11, 1907, of inflammatory rheumatism, age 16 years 11 months and 19 days. She left quite a number of relatives and friends to mourn her departure. Yet their loss is her gain. We believe she died safe in the hands of Jesus and that her spirit is now roaming in that land of bliss the home of the redeemed and bearing a beacon light and beckoning to some one to come home to meet her in the skies. We would say to the bereaved ones not to mourn for her as for one who had no hope, but look unto Him who doeth all things well and ever be prepared to meet Grace in her Heavenly home.

Again through God's Providence another member of the class at Marvin Chapel has been called upon to go to

## Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much nervous sickness and suffering may be avoided. The operating table and the surgeon's knife would, it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The Favorite Prescription has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a medicine of known composition, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine being the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended. A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

### Growers to Control Peanut Crop.

The peanut growers of North Carolina and Virginia are about to adopt the same steps toward controlling the market, as were taken by the tobacco growers of Kentucky.

Before the advent of the American Society of Equity, the tobacco growers sold at prices set by the trust; since being organized they have doubled the price set by the trust, and it must "come through with the coin" or not get the goods. The producers have built warehouses and store their crops therein until sold. If a grower so desires, he is able to secure an advance in cash of 50 per cent. of the appraised value. This has resulted in many instances of a man receiving more by way of advance money than he would have received had he sold to the trust, and he still has a like amount coming to him when the crop is finally sold.

That the growers by organization can obtain the minimum price of 5 1/2 cents for prime nuts, there is no question. Last winter the North Carolina and Virginia growers who were organized obtained 5 1/2 cents. Tennessee growers who were not organized sold for less than 4 cents. These facts have aroused enthusiasm among the Tennessee growers to such an extent, that they are organizing all along the line. This means the peanut growers will control the crop of 1907.

### Seven Hills Chautauqua.

## ELOPES WHILE PAR- ENTS ARE ASLEEP.

Birk City Girl Locked up to Keep  
Sweetheart Away, Escapes  
Through Window.

Togged out in a borrowed hat, bespattered with mud from a long ride, but jubilant at success, Charlotte Polk, aged seventeen years, who eloped at midnight from her home in Birk City, Ky., was married at County Clerk Foster's office in the courthouse Friday morning to Frank Kerr, aged nineteen years, also of Birk City, says the Evansville Courier, Rev. C. D. Mitchell performing the ceremony.

The girl, who is a petite and dashing type of Kentucky beauty, had been the sweetheart of young Kerr for several years. Recently she breached to her parents her intention to marry him. Her father and mother, Mr. and Mrs. Molly Polk, emphatically opposed the marriage and shut the girl up in the house with strict orders for her to have nothing more to do with the young and dashing Lochlinvar. The next time that Kerr called at the Polk homestead the dogs were set on him and he fled to escape harm.

Nothing daunted, Kerr and the imprisoned girl got into communication through friends and determined upon an elopement. On Thursday night, while Miss Polk's parents were asleep, she dressed for a hurried trip and started to crawl out through her bedroom window. Imagining that she heard a noise, she jumped from the window so quickly that her hat fell inside the room. She went ahead bareheaded. At a safe distance down the lane she joined young Kerr in a buggy and drove like furies to Henderson, Ky., arriving there at 2 o'clock in the morning.

From there they took the train to Evansville and made a line for the court house, where they secured a marriage license. The young couple returned home in a noon train. The bride said she would not go to see her parents as she knew it would be no use to ask for forgiveness for a while at least.

A prompt, pleasant, good remedy for coughs and colds, is Kennedy's Laxative Cough Syrup. It is especially recommended for babies and children, but good for every member of the family. It contains honey and natural tastes nearly as good as maple syrup. Children like it. Sold by all druggists.

### The Hargis Verdict.

As a good citizen, we accept the verdict of the jury that said James Hargis was not a party to the assassination of James Cockrell. But the verdict has not changed our opinion, nor will it that of other citizens. If there are those who do not believe in his guilt, they will continue of the same opinion. Those that think he is guilty, but would exempt him from punishment for political or other reasons will continue in the same line. No one acquainted with public sentiment will question the fact that it is the general belief that he is guilty. These are the conditions as we see them. If as good citizens we accept the verdict, for the same reasons as good citizens we should know the facts connected with the trial and the verdict. At the former trial of Judge Hargis for this offense, the instructions of the trial judge were of a nature to favor his acquittal, and it would have been done but for the fact that two of the jurors relied on the evidence rather than the instructions. In order that the conditions may be understood, we will state that Judge Hargis is, as was stated by the Lexington Democrat, a member of the Democratic State Central Committee and as a man of recognized force in party affairs. It was through the influence of Judge Hargis that Judge D. B. Redwine was made Chairman of the Music Hall Convention in 1905.

The court that tried Judge Hargis with all the officers was composed exclusively of his political associates. The sheriffs that summoned the jury were his personal as well as his political friends. A. W. O. Lee, the foreman of the jury, is a Lexington saloon keeper. The eleven were from one section of Scott county. All twelve of the jury are partisan Democrats. At

the conclusion of Col. Allen's speech, Wednesday afternoon, the jury was sent to the jury room. After about one hour, they adjourned for supper. It was then that the politicians, including the deputy sheriff in charge of the jury, got busy. Democrat officer holders from Georgetown began to appear. At an early hour Tuesday morning, the tip was out that the jury had agreed and that it was acquitted.

The friends of Judge Hargis were promptly in the court room. When the verdict was read there was an outburst of applause. After the demonstration was over and the jury was discharged, Judge Hargis shook hands with the members of the jury and thanked each of them personally for their verdict, which acquitted him. Leaving the courthouse Judge Hargis, accompanied by his friends, including several of the jury, adjourned to the Leland Hotel, where he celebrated his acquittal by ordering drinks for the crowd.

Later, one of the jurors from Scott county, R. T. Herndon, said to Bill Britton in the county jail:

"Britton, there is a report that I pulled this jury over for your side, and its d-d right. I am a citizen of the old type and I will stand by you fellows always. If you ever get hard run just come to me and as long as I have a back account you can have my help."

From the evidence produced, the action of the court officers, with the exception of Col. Allen, and the verdict, we conclude that it was an expense to the Commonwealth and a waste of time to introduce evidence that Judge Hargis, because of his standing and influence in the Democratic party, is immune from punishment no difference with what might be charged. —San-Son file.

### Badly Mixed Up.

Abraham Brown, of Whiteron, N. Y., had a very remarkable experience, he says: "Doctors got badly mixed up over me; one said heart disease; two called it kidney trouble; the fourth, blood poison, and the fifth stomach and liver trouble; but none of them helped me; so my wife advised trying Electric Bitters, which are restoring me to perfect health. One bottle did me more good than all the five prescribed." Guaranteed to cure blood poison, weakness and all stomach, liver and kidney complaints, by all druggists, 50c.

### Taxing Bachelors Some More.

Bachelors should not be taxed. The poor devil who has never tasted the sweetest of matrimony, who has never known what it is to have her waiting for him, who has never gathered them about his knees and listened to them as they sing such sweet and tender melodies as "Everybody Works But Father," who has never been called upon to heal the injuries of the wounded doll who has never got up in the night to furnish a remedy for the aching interior of the 11 pound anatomy who has never had his collar and shirt front mussed by the soiled hands of loving progeny—this chap ought not to be taxed. In loneliness, he is every day expiring his failure. In solitude, he is his own worst enemy. In all the Republics is an outlaw with a price upon his head. Pay the poor old bachelor—don't tax him. —Galatin News.

### A Real Wonderland.

South Dakota, with its rich silver mines, bonanza farms, wide ranges and strange natural formations, is a veritable wonderland. At Mount City, in the home of Mrs. E. D. Clapp, a wonderful case of hearting has lately occurred. Her son seemed near death with lung and throat trouble. "Exhausting coughing spells occurred every five minutes," writes Mrs. Clapp. "When I began giving Dr. King's New Discovery, the great medicine, that saved his life and completely cured him." Guaranteed for coughs and colds, throat and lung troubles, by all druggists, 50c, and \$1.00. Trial bottle free.

### Wigs Made of Glass.

The enormous machine made for artificial curls and waves is leading to a revolution in human hair. Formerly Swiss, German and Hungarian girls supplied the world of fashionable women with luxuriant tresses of all tints. But the governments of many countries are now making it illegal for a girl to sell her hair or for an agent to buy it. The supply in consequence is running short, and the prices of real hair are troubling.

A series of successful experiments point to spun glass as the most effective substitute for human hair. Wigs made from spun glass are wonderfully light and fine and the texture soft and beautiful.

It is easy to produce any shade desired, while curls and waves can be manufactured at will to suit the fashion of the moment. The invention is so realistic and true to life that it is impossible to detect the difference between it and real hair grown on the head. —London Daily Mail.

We are authorized to announce DR. JAMES A. DUFF, of Sulphur Springs, a candidate to represent Ohio county in the next House of Representatives, subject to the action of the Republican party.

We are authorized to announce JUDGE D. BAKER RHODES, of Beaver Dam, a candidate to represent Ohio county in the next House of Representatives, subject to the action of the Republican party.

Examine the label on your paper, if it is not correct notify us.

The Cortelyou Presidential boom seems to be slipping down hill.

The Watterson dark horse continues to grow darker.

Governor Beckham may yet decide to move Louisville to Frankfort, or Bardonia.

The Presidential boom which reaches the largest proportions this summer will be the most severely tested by the bleak winds of the coming winter. They are just as susceptible to frost as the cabbage or beet.

If the Republicans had been handed such a stinging rebuke for stealing an election as the one just administered to the Democrats of Louisville, we would have no hopes of carrying that city this fall. No northern city could be carried by the Republicans, under such circumstances.

Senator McCreary has come to life long enough to predict that the Democrats will carry Kentucky this fall. However, Republicans should not be unnecessarily discouraged over this, for it will be remembered that the Senator predicted his own election in the Democratic primary last fall, by a large vote.

We note that the citizens of the city of Middlesboro have been giving Prof.

M. O. Winfrey, Democratic nominee for State Superintendent of Public Instruction, a farewell reception. This reminds us of another farewell banquet which was given to Judge Reeves by the bar at Russellville when he was the Democratic candidate for Judge of the Court of Appeals in 1894, against Judge B. L. D. Guffy. Upon that occasion the banquet was all that could be asked, but the "farewell" part never materialized. The friends of Prof. Winfrey had doubtless never heard of the Reeves experience, or they would have deferred their farewell reception until after the November election.

The Louisville Daily Herald pays us the following compliment in its issue Tuesday of this week: "A genuine party paper is the Hartford Republican. It never indulges in vituperation of fellow Republicans who happen not to see with its eye to eye. It never issues Sultanic commands to Republicans as to what they 'must' do in the choice of candidates or the formulation of platforms. It is for party, not for factional triumph. The Republican's first thought now is for a State victory in 1907. With that desire uppermost, the Republican lines up with The Herald in calling for no untimely admixture of national with State issue in the coming State convention."

### We Need a Big Stick Schedule.

France, like Germany, has a two-schedule Tariff, a maximum for countries which do not give special favors to French products, and a minimum for the benefit of those that do. The United States, with its single schedule system, is placed at a disadvantage in dealing with the nations which have the maximum and minimum systems, for in the adjustment of trade relations those countries give each other the benefit of the lower schedule and maintain the higher against this country, or are on the point of doing so. The resulting situation will compel this country to adopt the two schedule system as a measure of self-defense. The need of doing so in the near future is hardly debatable, the really debatable point being whether we shall have a Protective Tariff with a higher schedule for punitive use—a "big stick" schedule—or whether there shall be a schedule of general application with a lower one for purposes of effecting reciprocity agreements. Speaker Cannon has expressed himself in favor of the big stick policy, and we are more inclined to favor it than the other one—Pittsburgh Chronicle.

Rockport Lodge No. 316, I. O. O. F., Rockport, Ky.

At a call meeting of Rockport Lodge No. 316, I. O. O. F., Tuesday June 4th, 1907, convened to pay the last respects to our departed brother, D. F. Gibbs, a committee was appointed to write the following resolutions:

had been for years one of the leading business men of Rockport, Ky.

Whereas, It hath pleased the Almighty God, in his wisdom to remove from among us our esteemed brother, D. F. Gibbs, and,

Whereas, We know that he who rules and governs the destiny of nations doeth everything for the best, therefore we bow to His divine will, and be it,

Resolved, That in the death of Brother Gibbs his family has sustained a great loss in husband and father, the community an upright and respected citizen and business man of integrity, Rockport lodge No. 316, I. O. O. F., a true Odd Fellow and brother; and,

## JIM HARGIS ON TWENTY-SIX BONDS

Most of Them For Men Charged  
With Murder Such is Breath-  
itt Court Records.

In the records of the ball bonds that were brought here from the Breathitt Circuit Court to be used in the Hargis trial there are some exceedingly interesting things made so by the recent Breathitt troubles. Probably the most striking thing contained in one of the bonds is the fact that S. H. Hurst, who is a relative of the late James B. Marcum who was murdered in Jackson, was on the bond of Thomas White with James Hargis and Ed Callahan. White was charged with murder and his bond was fixed at \$3,000. Hurst, with Hargis and Callahan was also on the bond of Shelby White, charged with murder in the sum of \$2,000. This was before the Marcum murder.

Quite a coincidence was noted in another portion of the ball book, where B. D. Cox, who was also murdered in Jackson, went on the bond of James Mann, charged with murder, for \$2,500, the same day Judge James Hargis signed the bond of Levi Hallan, charged with rape. The bond of Cox followed immediately that of Hargis, and was evidently made at the same time. This was 1902.

In the single book it was found that the Hargis had signed in all twenty-six bonds, most of which were for murder. The last bond signed by the Hargis registered in this book was on March 6, 1907, when Senator A. H. Hargis, Elbert Hargis and James Hargis stood for John Abner in the sum of \$10,000 in connection with the Cox murder.

### McClure's Summer Reading.

The summer number of McClure's will contain an array of entertaining reading that is particularly adapted to the season. From an editorial announcement we find that there are to be several new features presented in early numbers. Among them the most noteworthy in promise, as shown by the first paper in the June number, are the Ellen Terry "Memories." The portions to be published from time to time deal with separate events of Miss Terry's life.

There could be no more fascinating reading than Walter Wellman's account of his preparing for a voyage to Pole in a flying machine to be made in July. Wellman's article is to be printed in June and July.

"The Fight of the Copper Kings," C. P. Connolly's amazing story of Montana, is to reach its climax in July with the narration of the sensational struggle for the Minute Healy mine. In July, also, Carl Schurz' "Reminiscences" reach their climax in the "High Tide of the Rebellion" at Gettysburg.

### Here's Good Advice.

O. S. Woolver, one of the best known merchants of Le Raysville, N. Y., says: "If you are ever troubled with piles, apply Bucklen's Arnica Salve. It cured me of them for good 20 years ago." Cures every sore, wound, burn or abrasion. 25c at all druggists.

### Mr. Cleveland on Tariff.

Says Mr. Cleveland: "It can never be denied, and it should never be forgotten that the Tariff is the father of the trusts. American goods are cheaper abroad than at home. It is idle to talk of surplus stock and the like. The simple fact is the Tariff puts into the hands of corporations a powerful weapon with which to do injustice to our own people." If that is true it turns no argument against reasonable Protective Tariff schedules, and it falls

immensurably short of proving that "Protection is robbery"—such Protection, for example, as will permit American manufacturers to pay American wages. One would suppose that the experience of President Cleveland, in "Tariff reform" would have convinced him that his vocation did not lie in that direction. His splendidly successful campaign of 1892 was waged on a howling Free-Trade platform, but that campaign was, in part, financed by the Sugar Trust, and that favor was reciprocated in the Wilson-Gorman Tariff. His Administration will live in history and in the gratitude of his countrymen because he saved the Republic from the calamity of going onto the silver basis. That is glory enough for one man. As a Tariff reformer he was signally defeated, although the Tariff that became a law by his permission, yet bedecked with his malediction, was a very good men are, in order to save the gold standard President Cleveland, was compelled to render indispensable aid in electing McKinley, and thus brought in a Republican Congress and the Dingley Tariff of 1897.

It is a rather notable coincidence that President Cleveland shouldered the responsibility of repealing the Democratic Tariff and enacting the Dingley measure, and that Candidate Bryan secured the ratification of the treaty that loaded Philippine sovereignty onto the United States.—Washington Post.

Bert Barber, of Elton, Wis., says: "I have only taken four dozen of your Kidney and Bladder Pills and they have done for me more than any other medicine has ever done. I am still taking the pills as I want a perfect cure." Mr. Barber refers to DeWitt's Kidney and Bladder Pills, which are unequalled for backache, weak kidneys, inflammation of the bladder and all urinary troubles. A week's treatment for 25c. Sold by all druggists.

Similar to Our Mammoth Cave  
Trip Last Year.

Last year The Republican gave a very successful free trip to the Mammoth Cave, for Ohio county school boys, determining the favored ones by a popularity contest. We feel, this year, that the young ladies should have a chance. So we have determined to send free of any cost whatever, the most popular young lady in Ohio county, residing North of Rough river, and one residing South of the river, to the Jamestown Exposition. We do not desire to invite any trouble on the age question, and hence make no limit. Any lady who may consider herself young enough to make the trip, may enter the contest. The contest will close Saturday, August 31, at 5 o'clock p. m. The trip will be made sometime in the month of September, and the two successful ladies will be accompanied to Jamestown, one of the editors of this paper, and his wife. Every item of expense including railroad fare, hotel bills, exposition tickets, etc., will be met by this paper.

### CONDITIONS OF CONTEST.

Every dollar paid in subscriptions to The Republican, whether arrears or advance, will entitle the person making such payment to 100 votes, and they will be recorded for any one of the candidates as directed. Amounts of less than one dollar will be credited with a proportionate vote. Any one will be allowed to vote for a candidate residing in any part of Ohio county regardless of the voter's residence.

A coupon will be printed in each issue of The Republican, and when clipped and sent to our office, will be counted as five votes for the candidate whose name appears on the same. A supply of blank ballots will be furnished to any one on application. The names and standing of the various candidates will be printed in these columns from time to time. Books will be opened, ready for votes next Monday morning, March 18. Select your candidate, and arrange to aid her in every possible way.

### LEG WEAKNESS.

Same Methods of Feeding Will Usually Correct This Trouble.

Weakness of the legs is a trouble appearing in young birds, in cockerels more often than in pullets, and is seen usually between three and five months of age. The larger breeds are more prone to this trouble than the smaller and more active birds.

This weakness is caused by pushing for growth by feeding too much fattening food, says a writer in Inland Poultry Journal, thereby increasing the weight of the body beyond the ability of the legs to support it.

If our birds are getting into this condition, you will notice at first unsteadiness in gait. They move slowly, and the limbs slightly shake. In a week's time they can hardly keep upon their legs and when feeding will sit down so the body is nearly on the ground. Looking the bird over, you will find little to attract your eye except the weakness of the legs. The bird otherwise appears to be healthy. The feathers are bright, the eye clear and the appetite good. As the days pass he loses his desire for food, is picked upon by his brothers, lice multiply upon him, he becomes thin, and the skin grows dry and crackly.

In the very beginning of the leg weakness remove all causes of trouble. Spice, corn and cornmeal, buckwheat and rye should not be fed for weeks to such birds. Have regular times to give the meals and make each bird work for part of his food. If possible, have sick birds by themselves to avoid imposition by the other chicks. A grass run, with shade and cool water, will help cure these causes. If you have time and patience, one-tenth of a grain of quinine given to each bird with leg weakness every morning will help bring up the chick to health again.

Cockerels often are susceptible to leg weakness, especially if allowed to run with hens, causing them to pay too much attention to the hens before their strength is sufficient to warrant it. In such cases confine the cockerels by themselves and give them strengthening food. On a well regulated poultry farm the cockerels and pullets should be separated from each other. Each will do better.

It is always well to examine the bird carefully to determine whether it may not be rheumatism, which is usually accompanied by a swelling of the joints.

### Sun Bath Coop For Chicks.

The illustration shows a sun bath coop for chicks which is used with great success in many portions of New England. The box in which the hen is kept overlaps the sun parlor to some extent, the overlapping portion being faced with three inch mesh poultry wire, so that the chicks can get in and out at will, while the old hen is kept confined. An opening from the box proper leads to the sun bath, which is nothing more than a box with a beveled top, to the upper portion of which is hinged a window sash or a hotbed sash. When the weather is cold or rainy the little fellows may enjoy themselves almost as much as though they were outdoors. This entire contrivance may be built at a cost of a few cents if one happens to have an old sash on hand.

This entire contrivance may be built at a cost of a few cents if one happens to have an old sash on hand.

### "Domineering" Hens.

Some folks like to domineer over timid people. Hens are like human beings in this respect. The cross, bossy hens and their broods will get more than their share of the feed if one is not careful in feeding.

The domineering hens compel the others to keep to the rear.

The hens eat more than they need anyway when allowed to eat with the chicks. A feeding coop that will admit the chicks and exclude the quarrelsome, fussy old hens is almost a necessity.

### Treatment For Colds.

When colds first make their appearance accompanied by sneezing and running at the nose fifteen drops of spirits of camphor mixed with sugar and the whole dissolved in a pint of drinking water, allowing the birds no other drink, will usually prove an effective remedy. See that the poultry quarters are well ventilated. Birds will recover from colds more quickly in an open front house than they will in a tightly closed one.

### Don't Coddle the Hens.

There is such a thing as being over-particular with your hens. Don't think it a kindness to keep them shut up all the time in a little bit of a pen, feeding them all they can stuff. Let them out to skirmish around for themselves. They will enjoy it and do all the better for it.

### "Don'ts" in Rearing Chicks.

The principal things to avoid in rearing little chicks are crowding, too much feed, too much heat and sudden and extreme changes in temperature. Do not try to hatch more chicks than you have brooder room for. For 500 chicks have at least ten brooders.

### The "White" Makes the Chick.

The whole of the chick is formed out of the white of the egg. The yolk is never taken in until just before pipping time; then it is drawn in and furnishes food for the chick.

### Acorns as Poultry Food.

Acorns are not a valuable foodstuff for poultry, because they are deficient in flesh forming elements, besides which they contain tannin, which hardens muscular tissues and to a certain extent impairs the flavor of flesh and eggs—that is, when poultry have many acorns. Fowls will rarely devour whole acorns. Therefore to induce the birds to devour them it is necessary to Kibble them or to grind and add them in limited quantities to the soft food.

### Heat the Brooder in Advance.

Always make it a point to warm up the brooder several days before wanted for the newly hatched chicks—a week before if possible. This will give time enough to note how much, if any, outside changes in temperature affect the temperature in the brooder. Too much care cannot be exercised in this particular. Irregularity in the temperature of the brooder is almost certain to work havoc.

### Preventive For Indigestion.

The best preventive for indigestion and dysentery both for chicks and laying hens is one-quarter pound sulphate of iron and one-half ounce sulphuric acid dissolved in one gallon of hot water. Place in a stone jar and set away to cool and settle. Add one tablespoonful of this liquid to each quart of drinking water. This is a mild and effectual remedy.

### Mating the Birds.

It is best to mate up breeding pens two weeks before you begin to save eggs for hatching. Some breeders mate up their pens in the fall when they put them into the poultry house. Well matured cockerels and pullets may be mated, but it is generally believed that better results follow mating well matured cockerels with yearling or two-year-old hens and yearling or two-year-old cocks with pullets.

### Don't Feed Too Soon.

After the chicks are hatched they should not be fed for at least forty-eight hours, and some people do not feed until they are sixty-four hours old. When the chicks are first put into the brooder the temperature of the brooder should not be above 95, where it should be kept for the first few days and then gradually reduced each day until it is down to 75 degrees.

### The Turkey Season.

If the weather is warm, the turkeys lay in April, and old hens should be preferred. The main crop of young turkeys, however, comes in May, though in some sections they are hatched sooner.

## Spasms St. Vitus' Dance

Many persons who suffered untold agonies from epilepsy, fits, spasms, and St. Vitus' Dance are today well. The strengthening influence of Dr. Miles' Nervine upon the shattered nerves having restored them to perfect health.

"I endured agony that words cannot express from St. Vitus' dance, which followed a very severe spell of rheumatism. I doctored with a physician, but the more I took of his medicine the worse I got. My mother's devotion saved me. After she had become almost heart-broken, as well as physically exhausted from constant care, by the advice of a neighbor she procured a bottle of Dr. Miles' Nervine. From the first dose to the last a continual change for the better was noticeable, and when I had taken eleven bottles I was well, and in robust health."

EDWARD D. REAM,  
North Manchester, Indiana.

"Our little boy Harry, had spasms for three years, and although we doctored with many physicians, he continued to grow worse until he had ten spasms in one week. About that time our attention was called to Dr. Miles' Nervine. We began giving it to him. His improvement seemed slow, but when he had finished the fourth bottle the spasms had disappeared, and have not been seen now for years. We shall always recommend Dr. Miles' Nervine."

are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart. Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.
